Mendocinoites Tour Valley

One of the first touring parties to cover the Sacramento valley territory on a pleasure jaunt has returned to San Francisco. The party included Fred Gross of the Howard Automobile Company, Luther Redemeyer and family and Jeff Duffy, of Willits. The trip made in Mr. Redemeyer's Oldsmobile "autocrat," was to Oroville and return. The tourists also visited the mining district in the Feather River Canyon, going by way of the east side and returning on the west side by way of Colusa. In speaking of the roads, Gross said:

"We covered in all 520 miles and found many touring parties already taking advantage of the condition of the roads, which at the present time are really very good."

To Build Bridge at Potter

The citizens of the thriving little town of Potter Valley have decided to build a new bridge over Russian River at the Centerville crossing and have advertised for bids for the construction of the same. The proposed structure is much needed and the town trustees are to be congratulated upon their decision to erect it and the prompt measures they are taking to have it rushed to completion as soon as possible.

Game With Boonville Sunday

The Ukiah Baseball team will cross bats with the Boonville team on the Ukiah diamond Sunday. Manager Cleland has been after this game for some time as the Boonville agggregation is a strong one. The lineup will be as folows and judging from a perusal of it the game will be a good one—probably the best pulled off this year. The Ukiah boys have been putting in some hard practise the past two weeks and fans should turn out and root for the home team. They proisme a game that you need not be ashamed of.

Hop Prices Climbing Higher

Portland.—The market for new crop Oregon hops was advanced three cents a pound when a dealer contracted for 1911 crop at 25 cents. The market here is rising rapidly because of the expected shortage in the world's crop and the fact that supplies of all hops are nearly exhausted. Only 296 bales of last year's crop is left in Oregon. The Oregon crop is backward and is not likely to reach last year's yield of 92,500 bales. Well informed hop men do not believe the total American crop will equal home requirements and say that exportations are out of the question.

Marriage Licenses Issued

Marriage licenses were issued this week to Elbert A. Cox and Pearl May Strider, both of Ukiah; Frank Schoubeck and Miss C. Morrison, of Covelo; Eugene Bailey and Minnie Wainwright of Mendocino; Ottavio Venturi and Argentina Fombini, of Willits; James A. Geary and Daisy Underhill, of Ukiah.

Master Mason Here

D. R. Weller, Grand Master of the California Masons, paid the Ukiah lodge a visit last Monday evening and was tendered a reception and banquet by the local members. Some 75 were in attendance. F. J. Baker, State Lecturer for the Eastern Star, was a guest with Mr. Weller and divided the honor of the evening.

RED MEN TO ADOPT TOMORROW EVENING

The Red Men have completed arrangements for their big class adoption tomorrow evening and the affair promises to mark an epoch in fraternal circles in Ukiah. A class of about 40 new members has been secured and they will be initiated into the mysteries of the order by the crack degree team of Yulupa tribe of Santa Rosa This is one of the best degree teams in the United States. The work of the Red Men is probably the most beautiful of all fraternal ceremonies and it will be put on in a manner that will make it a lesson long to be remembered.

Delegations will come from Petaluma, Sebastopol and Healdsburg, in addition to that from Santa Rosa, arriving on the evening train, and the Ukiah tribe will meet them at the depot and escort them to the hall. The parade will be under the direction of S. L. McDonald, of Talmage and will be headed by Keller's Band of 25 pieces. The Indians will be in single file and the route will be illuminated by red fire. A rousing time is looked for.

Great Chief of Records Porter L. Bliss, Great Junior Sagamore, E. S. Winfield, of Petaluma, Senator J. B. Sanford and J. C. Ruddock will have charge of the adoption ceremonies at the hall.

Vote for Washingtons

The vote for George and Martha Washington was counted last night and the contestants stand as follows:

Holzhauser and Scott, 3340
Mankins and Wilson, 3700
Sloper and Parker, 320
Bishop and Banks, 230.

COMMITTEE APPOINTS OFFICIALS FOR 4TH

The Fourth of July Committee has appointed the following officials to serve at Ukiah's mammoth celebration:

President of the Day, Hon. J. Q. White. Reader of Declaration of Independence, C. D. Flowers. Grand Marshal, Sheriff R. R. Byrnes.

The baseball games, of which there will be one or two each day during the 2d, 3d, and 4th, will be under the direction of E. J. Sanford.

DON'T FORFET THE BALLON ASCENSION

Joe Ainslie was in from Riverside resort yesterday accompanied by Professor Godfrey, the Aeronaut, who is to give the ballon ascension and parachute drop Sunday. Professor Godfrey holds the altitude record west of the Rocky mountains and is one of the best men in the world in this line. The affair will be one of the biggest that has ever been pulled off outside of San Francicso and a big crowd will be in attendance from Potter valley, Willits, Lake county and Ukiah. Joe says for all to come, as he can take care of everybody. He has made arrangements for 2000 people.

Have Timber Left

The sale of a large body of timber in the Anderson valley country last week to the Santa Fe Co. by the Standish-Hickey Timber Co. does not dispose of the entire holdings of the Standish-Hickey Company in this section by any means. They still have thousands of acres left and in the Navarro basin. This statement is published to counteract a report that was current here last week that this sale had disposed of the greater part of their holdings in this territory.

Want Mendocino Exhibit

J. A. Filcher, acting for the State Fair Commission at Sacramento, arrived in Ukiah last Wednesday from Eureka, whither he had been on a mission to the Humboldt County Board of Supervisors. Mr. Filcher appeared before the Supervisors Wednesday afternoon, asking them to levy the 6 cent tax to ensure Mendocino county an exhibit at the State Fair. Mr. Brown, on a similar mission for the 1915 fair, also appeared before the Board. The Board took the two matters under advisement.

MISS HILDRETH AND WILL BOND WED

At a very quiet wedding attended by the near relatives of the bride alone Wm. Bond and Miss Irene Hildreth were united in marriage at the home of the bride's parents in Ukiah last Sunday. The ceremony took place about 12:30 and after a dainty wedding breakfast the happy young couple departed on the afternoon train for a two week's honeymoon in San Francisco and other cities about the bay.

The ceremony was performed by Father Arkwright. The bride was beautifully gowned in crepe de chine over white messaline and carried white roses. She was attended by her sister, Miss Pauline Hildreth, who was becomingly attired in blue messaline and carried pink roses. The groom was attended by Victor Hildreth, brother of the bride. The ceremony took place under a bower of white and white was prevalent in the decorations.

The wedding of Mr. Bond and Miss Hildreth is the consummation of another of Ukiah's pretty romances. The bride is the daughter of Mr. and Mrs. W. J. Hildreth and is one of Mendocino's fairest daughters. The groom has been a resident here for a number of years and is a trusted employee of Jamison Bros. Co., being the head of one of their departments. Both are prominent members of the social set and have a host of friends who will join the Dispatch in extending felicitations.

Upon their return Mr. and Mrs. Bond will take up their residence in one the Crook cottages in the Todd addition, which has been attractively furnished by the groom.

RESOLUTIONS OF RESPECT

In Memory of Our Beloved Sister, Mary Taylor.

It is fitting that we should pause for a few moments, at this time to express our love and appreciation and honor to the memory of her, who has passed to to that mysterious realm from whence no traveler e'er returns.

Our golden chain has been broken, one by one, the links have fallen away, we miss her genial presence, her kindly smile, her cordial hand clasp. No more do we hear the sound of her voice; her eyes are closed in sleep and her footsteps are quieted forever.

She has gone from our presence, but the good she had done still remains with us.

Through life she was guided by the principles of our Order, and she is numbered among those who are fairest among thousands, altogether lovely.

In the midst of life we are reminded of death. In the midst of pleasure often comes pain. After the greatest joy often comes the keenest sorrow. Let us so live that when our summons comes to join the throng, we stand in the presence of our maker, that He may say to us, well done, thou good and faithful servant.

The Order of the Eastern Star, helps us to live the better life, not only here, but to fit us for the life to come, and how we may help our friends to do good unto others. On the final day we will not be rewarded on account of our riches or fame, our social position or influence but for the good we have done. Today we are guided by the Eastern Star to the place where lives the glorified Redeemer, to the Mansion not made by hands eternal in heaven. Let us then follow this Star and at last may we all be gathered an unbroken family around the mercy seat.

"Where only the Master shall praise us,
And only the Master shall blame,
And no one shall work for money,
And no one shall work for fame,
But each in the joy of his working,
And each in his separate Star,
Shall do the thing as he sees it,
For the God of things as they are."

Andrew Haun, a prominent resident of Jackson Valley, was in Ukiah on business this week. He reports the prospects good for a big year in Jackson and all the northern country this season.

FARMERS TO HOLD A BIG BARBECUE

Last Saturday the Farmers' Club held a very interesting meeting. Mr. Mower was to make an address on Farming conditions in France as compared with the United States. There was much business to be attended to and the interest so keen that the discussion was protracted until past adjournment time so that Mr. Mower's address had to be postponed until next meeting.

The Poultry Committee, Messrs. Carroll, Thomas, Roach and Aldrich reported through Mr. Carroll and Mr. Thomas that the Ukiah Poultry Association had been organized and voted to become an auxillary to the Farmers' Club. Our committee has considered every possible solution of the matters involved and had finally been forced to the conclusion that the only way to handle the problem was to organize the poultrymen and conduct their business themselves.

Messrs. Carroll and Thomas further reported that arrangements had been made with Mr. C. H. Kent to act as Secretary and Treasurer for the Association and receive all eggs. Mr. Kent has turned over his back room, which has a side entrance, and there the poultrymen deliver their eggs all packed in cases or half cases, ready to ship. They are shipped in the name of the Association and returns made to the same. The consignee is instructed to make separate account-sales of each case by number so that Mr. Kent can easily pay to each member just what his eggs bring. The shipments for the first month will likely exceed $1000.

The hotels reported that because of the eight hour law it is impossible for them to set any more evening banquets and therefore cannot serve the farmers as has been previously announced. The Club decided for this reason to hold a big Barbecue and Picnic down on the river. A committee was appointed and has already put under way plans for a great affair.

Clark's grove, just below the bridge has been secured and tables will be arranged to serve 500 or more people.

We want it thoroughly understood that this banquet is for every farmer in the valley. To use the word farmer includes every producer of farm commodities, hops, grain, stock, fruit, grapes, poultrymen and all the rest. We not only invite the farmers to attend, we insist that it is their duty to attend. We want you there and you need to be there. This is strictly a farmer's affair. There will be speaking in the afternoon. Two excellent men from our south have been provided. Perphaps there will be another secured this week. Now, Mr. Farmer, whoever you are, put your work in shape to take Saturday, June 24th as a holiday. The committee are open to suggestions and donations of fat livestock. The Committee are Endersby, Waugh, German, Richey, and Bernhard.

Nearly 60 grape growers have signed up for the winery. The President of the Company will be with us next Saturday to begin plans for building.

Mr. McCracken has been appointed as a committee on boxes. The plan is to buy by the car load from the lowest bidder for first quality.

C. A. Berhnard, Secretary.

Linen Shower for Miss Hildreth

The lady friends of Miss Irene Hildreth tendered her a linen shower last Thursday evening at the home of Mr. Lou Hildreth across the river in honor of her approaching wedding with Mrs. Will Bond. There were about thirty in attendance and some very beautiful and useful presents were received by the bride to be. Refreshments were served and a very enjoyable time is reported.

Work on Streets Progressing

Work on the paving of Ukiah's streets is progressing fast. Two blocks have been covered by the concrete and are awaiting the final surface of bitumen while work has now begun on the third block. In all five blocks will be paved on State street and it is thought that other property owners on the side streets will order the work done as soon as they see the advantage of it.

Valley, Coast and Mountain

Loads in Record Time

The steamer Fort Bragg loaded here this week in the remarkably fast time of 22½ hours. She sailed Monday evening for San Pedro with a cargo of 560,000 feet of lumber. Twenty-five thousand feet of lumber an hour is remarkably fast loading time over a wire chute and speaks well for the efficiency of Mr. Knight's loading crew on the point. There are few places where this rate is exceeded on the coast even with wharf facilities. The Fort Bragg is a commodious and well arranged boat with good facilities for handling lumber. She has made a number of trips to this port since she has been put in commission.

SAVED HIS WIFE'S LIFE

"My wife would have been in her grave to-day," writes O. H. Brown, of Muscadine, Ala., "if it had not been for Dr. King's New Discovery. She was down in her bed, not able to get up without help. She had a severe bronchial trouble and a dreadful cough. I got her a bottle of Dr. King's New Discovery, and she soon began to mend, and was well in a short time." Infallible for coughs and colds, it's the most reliable remedy on earth for desperate lung trouble, hemorrhages, lagrippe, asthma, hay fever, croup and whooping cough. 50c, $100. Trial bottle free. Guaranteed by J. R. Mathews.

Not the Answer He Expected.

Whitefield, whose dramatic appeals to his listeners were always a noteworthy part of his sermons, once preached to a body of seamen in New York. In the course of his sermon he introduced the following words:

"Well, my boys, we have a clear sky and are making fine headway over a smooth sea before a light breeze, and we shall soon lose sight of land. But what means this sudden lowering of the heavens and that dark cloud rising from the western horizon? Hark! Don't you hear the distant thunder? Don't you see those flashings of lightning? There is a storm gathering. Every man to his duty! How the waves rise and dash against the ship! The air is dark. The tempest rages! Our masts are gone! The ship is on her beam ends! What next?"

The hands of every sailor were gripping the pews in front of them, and a wild excitement was in their eyes. And when the preacher reached the climax of his dramatic speech they sprang to their feet in a body and shouted, "Take the longboat!"—New York Sun.

Tramps and Cuff Muzzlers.

The most curious article in the tramp's outfit bears an appropriately odd name—the "cuff muzzler." It consists of the leg of an old stocking cut up into short lengths and worn over the wrist like a thick mitten, and its object is to increase the circumference of the wrist to such an extent that a constable cannot easily slip a handcuff over it.

Indeed, a pair of "cuff muzzlers"—which are worn by none save veteran roadsters—make it very difficult for a constable alone and unaided to handcuff their wearer. Tramps' tools bear puzzling names. Particularly cryptic is "fiddle," the term for a big nail carried by the "spike ranger" or itinerant who goes from one casual ward to the next. Should he fall into the hands of the police it is used in "oakum worrying"—that is, separating the strands of hard rope.—Baltimore American.

A Woman's Letter.

Women, it is generally admitted, write much better letters than men. M. Marcel Prevost discovered the reason for this superiority. "The obvious meaning is never the one we should read into a woman's letter. There is always a veiled meaning. Woman makes use of a letter just as she employs a glance or a smile, in a way that is carefully thought out and with an eye to effect. And, after all, does a woman's hat serve to cover her head? Does a woman's parasol keep off the sun? Why, then, should a woman's letter serve to convey her real thoughts to the person addressed, just like the letters of some honest grocer, who writes, 'I send you five pounds of coffee,' because he really does send you five pounds of coffee?"—London Spectator.

PRIDE ON BOTH SIDES.

A Story of the Duke of Somerset and the Artist Seymour.

We have all heard of the "proud" Duke of Somerset, but we do not all know of the occasion on which his pride had a fall. The story is told in "The Glenbervie Journals."

It seems that the duchess had sent for Seymour, a celebrated painter of horses, to make the portrait of a racehorse at Petworth. Seymour during his stay used to dine in the steward's room, but one day the duke was so pleased with the picture as it advanced that he desired that he would dine at his table.

At dinner Seymour, who probably had not been expected to mix in the conversation, took occasion to say that he believed he had the honor to be related to his grace. This gave such offense that he was either sent away or put so much out of humor as to go away from Petworth without finishing the picture.

Afterward the duke's pride gave way to the desire he had of possessing a good portrait of his favorite horse, and he ordered his steward to write to Seymour and engage him to return to finish his work at Petworth.

Seymour directed his reply to the duke himself in these words: "Your pride would not allow that I am of your family. To convince you that I am, your picture shall remain as it is; for, by ——, I won't come!"

A Leading Question.

"Mr. Wombat?"

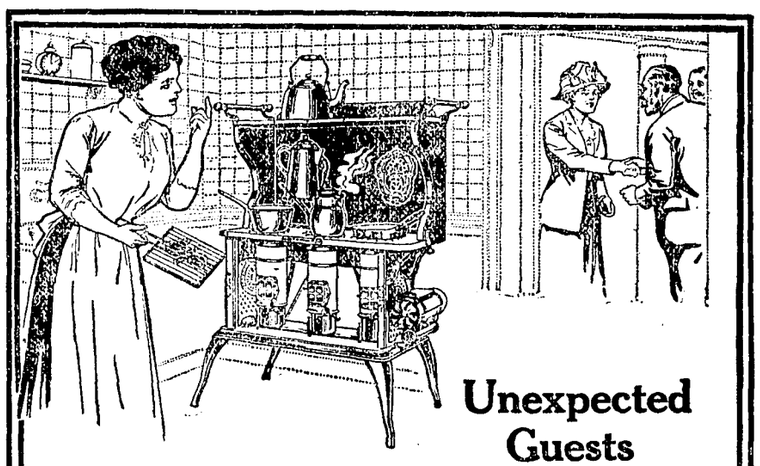
"What is it, Tommy?"

"When you were a little boy and fellers called on your sister, did they ever give you a nickel to go out and play?"—Kansas City Journal.

Saving Money.

Mrs. Muggins—Don't you ever try to save any money? Mr. Muggins—Sure. I saved $4 today. Borrowell struck me for $5, and I only let him have $1.—Philadelphia Record.

Do as well as you can today, and perhaps tomorrow you may be able to do better.—Rev. John Newton.



Unexpected Guests

The farmer and his wife were about to sit down to a cold supper when they saw some old friends driving towards the house.

The good wife was equal to the occasion—thanks to her New Perfection Oil Cook-stove.

She had it lit in a moment, and her guests hardly were seated on the porch before a hearty hot meal was ready for the table—sausages and eggs and long rashers of streaky bacon, and rolls just crisped in the oven and fresh coffee—and the hostess herself as cool and neat as if she had not been near the kitchen.

She never could have managed it with an old-fashioned range. The New Perfection is the quickest, most convenient and best cooker on the market.

CURIOUS DOMESTIC PETS.

Musical Insects and Waltzing Mice Popular In Japan.

Among the many curious domestic pets of the Japanese are their musical insects and waltzing mice.

Hung up in the verandas of Japanese houses may be seen small, exquisitely cut bamboo cages, from which in the hush of dawn and at the close of summer days proceed quaint little whistlings, tinklings and trills. Usually it is at evening that the Japanese sit at their ease to listen to the music of their imprisoned insects. One called the "suzu-mushi" gives out, it is said, a kind of trill so delicate and clear as to sound like an etherealized bird's song.

One species of Japanese mouse may be said to waltz through the greater part of the waking hours of its life, never tiring, though its feet wear out in the process. This peculiar little rodent is black and white and has pink eyes. Its chief peculiarity is that at a time when baby mice of other species are just beginning to move about this terpsichorean mouse is already able to waltz.

Put together, these Japanese dancing mice will waltz in couples, and at times more than two will join in a mad whirl. So rapid is the movement of the dancers that it is difficult to distinguish their heads from their tails.

The Japanese says that waltzing seems to be as essential to the happiness of this mouse as midair somersaults are to the tumbling pigeon. An upright peg forms a convenient pivot round which the mouse can whirl, but it is said that without any such guide they would not in several minutes cover an area larger than a dinner plate, and they easily spin under a tumbler.—New York Herald.

LIGHTNING KILLS FEW.

In 1906 lightning killed only 169 people in this whole country. One's chances of death by lightning are less than two in a million. The chance of death from liver, kidney or stomach trouble is vastly greater, but not of Electric Bitters be used, as Robert Madsen, of West Burlington, Ia., proved. Four doctors gave him after eight months of suffering from virulent liver trouble and yellow jaundice. He was then completely cured by Electric Bitters. Joseph Winder, 415 Hayden St., Healdsburg. Cal. says: "Over two and a half years ago a member of my family told in a public statement how greatly Doan's Kidney Pills had benefited me and at this time I willingly confirm all that was then said. At one time my back and kidneys troubled me and in the morning when I got up, there was so much pain and soreness in my loins that I was in misery if I moved. MALADIES OF METALS.

Curious Contagious Disease That Attacks Tin, Brass and Lead.

The alleged contagious diseases of metals is a topic that has been mentioned from time to time, but shall be mentioned again because it tends to promote uniformity in our views of mineral life and other kinds of life and to discredit the fashion of regarding anything in nature as dead and inert.

In a lecture before the Societe de Chimie Physique at Paris a professor spoke of the fact that tin when exposed to a temperature below the freezing point of mercury shows a kind of eruption of pustules in which the metal loses its ordinary shining surface, becomes gray and on being cut with a saw either falls to powder or breaks up into a bundle of fibers. This affection is capable of being communicated by contact, for the application of a few grains of the powder to the surface of a block of perfectly sound tin brings about its transformation in a few days.

In another transmittable disease of tin the structure of the metal is changed and becomes crystalline. This disease has a special tendency to attack joints which have been soldered, but it attacks brass and lead as well. Metals do seem more alive and organized than the earthy minerals.—Century Path.

Punished For Looking Healthy.

In the days of the Puritans the stocks were not unknown as a penalty for looking too healthy. Ruddiness of complexion was a crime when a gaunt visage was regarded as an outward sign of sanctity. Dr. Echard, writing in the early eighteenth century, remarks: "Then it was they would scarcely let a round faced man go to heaven. If he had but a little blood in his cheeks his condition was accounted dangerous, and I will assure you a very honest man of sanguine complexion if he chanced to come nigh an official zealot's house might be set in the stocks only for looking fresh on a frosty morning." Few of the January faces to be seen in a London street, however, would run any risk of drawing down this penalty. —London Chronicle.

Murder as a Fine Art.

It has been popularly supposed that Napoleon was directly and indirectly responsible for more deaths than any one else of modern times. But that estimate must be revised if the statement of Miss Southey in "Storm and Sunshine In South Africa" is to be accepted about the great Zulu king Tshaka, a contemporary of Napoleon, who "is believed to have accounted for the lives of over a million of his fellow creatures." There still existed at the time of Miss Southey's visit a very old lady who had known the despot and had many reminiscences of him.

"Noblesse Oblige."

In Mrs. Walford's story of Lord Mansfield in her book entitled "Recollections of a Scottish Novelist" the top note of propriety is reached.

The noble lord's young nephew, seeing him annoyed at a railway station at having no servant at hand to get his newspapers, ran posthaste and procured them. Lord Mansfield showed no gratitude whatever.

"Edward," was all he would say, "recollect, Edward, that a gentleman should never hurry himself in public."

Easy Money.

"I am working my way through college."

"Brave girl! How do you earn money?"

"Well, father gives me $10 for every singing lesson I don't take."—Louisville Courier-Journal.

HIGH SCHOOL NEWS NOTES

(Edited by Victor Endersby)

Concerning the new state law against pool-room loafing, etc, a statement was made in last week's Press that the said law would be a severe blow to "High School students and swagger youths under 21." The promulgator of that sentence must have been drunk or dreaming, and should be a little more careful with his language. The statement in its present sweeping form is a gross and slanderous untruth, and calls for an apology to the, High School. If we thought the writer of the sentence knew enough English to say what he meant we would use a stronger expression.

The baseball team defeated the Lakeport H. S. team by a score of 6 to 5 in a hard game on their own grounds Saturday. The evening before the second team walloped the Grammar School team by a score of 11 to 4, so it appears that we can win games with both hands at once. A game will be played with the Talmage team at the Asylum grounds on the afternoon of Friday, the 9th.

The High School colors have not yet seen defeat this season, but as Ben Van Dyke wlil pitch for Talmage, and the team has been doing some strenuous practise, the game will probably be one of the hardest of the season.

Mr. and Mrs. Mower entertained the members of the Class of 1911 and the Faculty at an informal reception Friday evening. A number of strenuous games were played before and after refreshments, and the gathering broke up with songs. It is said that all got home safely, though some were a little late.

BREATH OF A WOLF.

Here's a Persian Remedy if a Bone Sticks In Your Throat.

A new and ingenious remedy for a bone in the throat will be found in an account of a Persian pilgrimage published under the title of "The Glory of the Shia World." The doctor was Mirza Sadik Khan, chief physician of the vakil ul mulk:

"The patient was brought in on the verge of death, and when his condition had been described the learned physician stroked his long beard and exclaimed: 'By Allah! This case would be hopeless except for me, whose perception is phenomenal. The cause of this man's state is a bone lodged in the throat so firmly that no efforts avail to dislodge it. Therefore either the man must quickly die or the bone must be dissolved, and by what agency? Thanks be to Allah, I am a physician and a Kermani and have observed that wolves, who live on raw meat and bones, never suffer any calamity such as that of the patient. Therefore it is clear to me that the breath of a wolf dissolves bones and that if one breathes down the throat of a patient the bone will be dissolved.'

"Infinite are the marvels of Allah, for when a wolf belonging to a buffoon was brought in and breathed on the patient suddenly a fit of choking ensued and the bone, dissolved without doubt by the breath of the wolf, was loosened and extracted."

His Last Request.

As the doomed man was led to the scaffold the sheriff asked:

"Have you any last request to make?"

"Yes," said the wretch. "I would like to have a pair of suspenders."

So they assigned two hangmen to the job instead of one.—Baltimore Sun.

Colored Rain.

Showers of red rain have fallen more than once in the world's history. In the middle ages they were looked upon as awful omens of war and bloodshed, but nowadays we know the hue of the "rain of blood" to be due to the presence of a tiny red insect, a variety of water flea. Red rains are very rare, but in volcanic regions gray rain is comparatively common. Sicily has had many showers of this shade. They are caused by the upper atmosphere being full of ash colored volcanic dust from Etna. This dust is infinitesimally fine and colors the rain as it falls.

A Good Age to Stop At.

A certain London merchant had for years given a dinner to his employees on the occasion of the birthday of his daughter. How long this custom had held may be gathered from the following. The head clerk of the office rose, as was also the custom, and proposed this toast:

"Gentlemen, we enjoy this evening the felicity of celebrating, as we do every year, thanks to his generosity, the twenty-ninth birthday of the respected and always amiable daughter of our worthy employer. I give you, gentlemen, her health and happiness."—London Mail.

Special Promotion Number

By the Ukiah Times

This is an attempt to advertise Mendocino couuty in a dignified, conservative, and thoroughly modern way among prospective settlers in the state.

We expect to feature every section and every important interest in the county. This is probably the richest and most resourceful county in California not thoroughly advertised. This special Promotion and Panama Exposition number of The Times will bring the county, as far as it lies with the province of a newspaper to do so, to its proper place among the really great counties of the state.

Everyone in Mendocino county should arrange to send copies of this number to friends in the east.

CHANGED HIS OPINION.

He Guessed Four Times Before He Properly Labeled the Crowd.

At a banquet attended by nearly 300 members of a fraternal order in one of the large cities not long ago, given in honor of a citizen who had been elected president of the order, the orchestra, after playing several selections, struck up "Wearing of the Green." Apparently everybody present began to sing it, almost drowning out the instruments.

"It's easy to see," remarked one of the guests, "that this is an Irish crowd."

Presently the orchestra began the well known strains of "Die Wacht am Rhein," and the audience sang it en masse.

"I see I was wrong," said the guest. "This is a German crowd."

A few minutes later the musicians started up "Dixie." There was the usual clapping of hands, and everybody present turned his voice loose.

"Again I was wrong," he said. "This is a southern crowd."

At last the orchestra began to play "My Country, 'Tis of Thee." It is scarcely necessary to say that everybody stood up and sang with all his might.

"I take it all back," said the guest. "This is an American crowd."

Yet he was right, in one sense, in all four of his guesses. Yes, this is a wonderful country.—Youth's Companion.

Origin of Dukes.

The word duke comes from the Latin "dux," a leader. In early Saxon times the commanders of armies were called dukes—i. e., the leaders of the soldiery. In other words, the first duke was the first best fighting man. No regard was had to ancestry or present attainments or any other sort of thing beyond the simple matter of warlike efficiency. Naturally the leader of the fighting would when the fighting was over come in for the lion's share of the spoils and "honors," and naturally again the rest of the folks would "look up" to him, and by degrees his superiority would be imparted to his family, and a "nobility" would spring into being. It all rested, to start with, on brute force and animal courage combined with cunning in clubbing and thrusting.—New York American.

Dubious Work.

Many years ago when Colonel Frobel of Atlanta was called on to gauge the water in a neighboring stream he one day had an amusing encounter with an old farmer who came along on a wood cart drawn by an ox.

When he reached the colonel he stopped the cart and inquired peremptorily:

"What on 'arth are them men doin' thar?"

"They are trying to find out how many bucketfuls of water run down this creek in twenty-four hours," said the colonel.

"Mister, are that a true fact?" asked the farmer.

"Yes; that's just what it is," said the colonel.

"Well, mister," said the old man in a tone of much disapproval and anxiety, "it mought be all right, but it do appear to me such doin's are onconstitootional."—Youth's Companion.

Still Had It.

Rastus was on trial, charged with stealing $7.85. He pleaded not guilty, and as he was unable to hire an attorney the judge appointed Lawyer Clearem as counsel. Clearem put up a strong plea in defense, and Rastus was acquitted.

Counsel and client met a few minutes later outside the courtroom.

"Now, Rastus," said Clearem, "you know the court allows the counsel very little for defending this kind of case. I worked hard for you and got you clear. I'm entitled to much more pay than I'm getting for my valuable services, and you should dig up a good sized fee. Have you got any money?"

"Yes, boss," replied Rastus, "I still done got dat seben dollahs and eighty-five cents."—Everybody's.

SUBTLE VENGEANCE.

The Gift Dumas Bestowed on a Friend Who Insulted Him.

Alexandre Dumas the elder, the great novelist, had, as is well known, some black blood in his veins and was of an unforgiving if not almost cruel nature. In his earlier days he received a dire insult from one whom he called his friend. To the surprise of all who knew him Alexandre took no apparent notice of the wrong, but instead applied himself to looking carefully after the welfare of his supposed friend. He took him with him into society, introduced him here, presented him there and so continued for three years, at the end of which time he stood as "best man" at his friend's marriage.

The wedding feast being concluded, Alexandre Dumas was leaving the house when an acquaintance joined him and as they walked along said: "I have often wished to say how I have wondered at your great kindness to M. X., whom we have just seen married. You have the most forgiving nature that I have ever met with. He insulted you grossly some years ago, and yet ever since you have devoted yourself to his happiness and at last assisted him to get married."

"That's it precisely," remarked Dumas slowly, with a sinister chuckle. "I flatter myself that I have given him the most furious and lynx eyed mother-in-law in France." — London Telegraph.

NATURAL MEASURES.

The Hand, the Pace and the Cubit of the Scriptures.

The first "natural measurement" to which the memory naturally recurs is the hand, four inches, employed in determining the height of horses. This measure is, of course, derived from the breadth of the palm, and it has become so well fixed in popular esteem that it is unlikely it will ever be superseded.

Another popular natural measure is the pace, and probably every countryman who has had to do with land has used it. The usual method is to stride off, taking as long steps as possible, calling each pace a yard.

A natural measure much employed by a dressmaker is the yard as determined by stretching the material to be measured between her chin and her outstretched hand, or if it be a matter of inches she will fold the bended upper joint of her thumb along the cloth. These natural measures are generally close enough to serve all practical purposes.

For many hundreds of years there was employed the measure of the forearm from point of elbow to tip of middle finger. This was the cubit of the Bible.—St. Louis Republic.

Who Are Progressives?

There is a great deal of talk nowadays about the "Progressives" and the "Progressive" movement in the United States, and a great many people who are too busy to follow the political game are asking the question—"What is a "Progressive." A "Progressive" is an honest man who has become absolutely sick and tired of Republican hypocrisy, misrule and corporation control of public affairs, and sincerely desires to see the reins of government placed in the hands of the people. A "Progressive" believes that the government should be taken out of the hands of "special interests" and placed in the hands of the people where it rightfully belongs. As the Democratic party has been leading the fight for the people all the time all Democrats are therefore "Progressive." There are in the ranks of the Republican party many honest men who are not looking for political preferment and who believe with the Democratic party on this question. As they have rebelled again their own party rule and dictation they have been called "Insurgents," but in reality are "Progressives" or Democrats. The words "Progressive" and "Democrats" are synonyms. In speaking of the "progressive" movement in the United States one naturally refers to the trend toward Democratic principles. All who believe in the principles of Democracy should no longer be masquerading under the guise of Republicans but should come out into the open and join the ranks where their influence will count for something. The Republican party cannot reform itself. The hope of the people rests solely with the Democratic party. The standpatters will control the Republican party, so there is no hope of reforming the Republican party.

—o—o—

The "long haired men" and the "short haired women" are all in favor of woman suffrage. The courageous, chivalrous and manly men and the womanly women, the real mothers and home builders of the country, are opposed to this innovation in American political life. There was a bill before the legislature (The Sanford bill) which proposed to leave the matter to the women of the state, before the men should vote on it. The suffragettes, knowing full well that the women would vote down this measure, caused its defeat. Why the women would have beaten it ten to one. The club women and the mannish women, and the effeminate, sissy men are for the suffrage amendment. Let the men and women who are in favor of keeping the home pure and sacred come out in the open and defeat this amendment. The election will take place Oct. 10th.

Mayor McCarthy is having a monkey and parrot time with some of his commissioners, and as a consequence, has fired some of them. We believe in giving McCarthy all the power he wants—give him absolute control so that the people may know just what to expect during the next four years should he be reelected. To a man up a tree the people of San Francisco are not overly enthusistic over any man yet suggested. San Francisco by rights is a Democratic city and it is too bad that the Democratic party could not induce some one to enter the race. There is no enthusiasm over Rolf. A man like Washintgon Dodge could have caried the day hands down, and we cannot see why he was not induced to make the race.

Democracy Meets the Test

The action of the Democratic caucus in voting unanimously to support the Underwood tariff bill shows that the party is not composed of a lot of dreamers but has in its ranks a number of constructive statesmen who are intensely practical. The Republican party pledged itself to revise the tariff downard; they revised it upward instead. The people became disgusted and turned out the faithless and elected a Democratic Congress. The Democrats pledged that they would revise the tariff downard and they have kept their word. The schedeule as to wool and woolen goods is not free but it is so much better than the Payne-Aldrich bill that it seems almost free. The rate has been reduced on an average from 103 per cent to 21. This is quite a reduction when compared to the Republican empty promises. Had it not been for Republican extravagance free wool and free woolens would have been possible. The action of the caucus show that the Democrats propose to keep their pledges to the people and also that the government can safely be trusted to their care. A Democratic congress will be returned at the next election; there will be a Democratic Senate and a Democratic President elected. The country is safe.

Duncan McKinlay Is Right Now

Duncan McKinlay, former Congressman, delivered the oration at the commencement exercises of the Petaluma high school. In the course of his remarks he gave voice to the following:

"Many great evils, we are told, are developing with the body politic of our republic, but trace them all down and we are sure to find that the greater portion are caused by the perversion of the law by those who should be its strongest defenders. The great trusts and combinations, or over-grown corporations, who seem to consider themselves above and beyond the regulations and laws of the states in which they exist, and who are practicing illegal measues against the interests and welfare of the people, could not carry on for one hour their illegal practices if every lawyer of the land had the right conception of civic patriotism, and would refrain from giving advice as to how the laws could be evaded with impunity, and would practice his profession as a real lover of his country should, by always keeping in his mind and heart the obligation to the public and his country. To use the knowledge and experience gained in the practice of the law to evade, nullify, or to pervert the law, either for your own advantage or to advise another to do so, is to destroy the law, weaken the governmental system of our country, and bring contempt and disrust upon the legal system of your nation and State. And such a misuse of law is a species of treason against your country and your state."

Mr. McKinlay is right. Had he followed out this line of thought he would be in Congress to day. When he came into office, however, the interests were in control and he had to "stand pat" else he could not break in.

The whole trouble in retarded justice is entirely with the judges and the lawyers. That is just why the recall should be applied to the judiciary. Lawyers help make the laws and leave loop holes so that they can afterwards get a case. The legislature many times would be a whole lot better off if there were not a lawyer in it. Statistics prove that three fourths of the laws O K'ed by the Judiciary committee have been declared unconstitutional when tested by the courts, while three fourths of those that have been passed on by other committees have been declared constitutional when tested by the courts. The judiciary committee's opinion as to the constitutionality of a measure is not worth a whoop; that opinion simply represents the individual opinion of the lawyer as to the policy of the measure. The judiciary committee is known as the chloroform committee—the committee a bill is sent to when it is desired to have the proposition killed, without ever coming to a vote and thus forcing the members to show their hands.

Send for Seeds

The annual allotment of seeds to members of Congress by the Bureau of Plant Industry, U. S. Department of Agriculture, has been made. Congressman Kent has received a letter from the Chief of the Bureau stating that plans have been perfected for the congressional distribution of seeds and plants for the next season, and that he has been allotted 20,000 packages of vegetable seed and 2,000 packages of flower seed. In order that none of these seeds may be wasted by being sent to people who either cannot or do not wish to use them, Mr. Kent has decided not to send out the seeds indiscriminately, as is the common practice, but to send them only upon application. The readers of this paper who desire seeds, either vegetable or flower, for use, are requested to send their names and addresses to Congressman William Kent, House Office Bldg., Washington, D. C., with a request for seeds, stating the variety, quality desired. These requests will be filled in order that they are received, and as long as the allotment lasts.

TO THE PATRONS OF THE UKIAH GRAMMAR SCHOOL

We, the undersigned, Trustees of the Ukiah Grammar School, have this week, given notice of an election to be held in this School District, on Saturday, the 10th day of June, 1911, for the purpose of voting on the question of bonding the property in the District for $6500, to be used in repairing the school-houses, and supplying furniture as follows:

1. To renew all the stair-ways, six in number.
2. To re-floor both the first and second floors of the old school building.
3. To re-paper and replaster portions of the building, where paper and plaster have become badly defaced and damaged.
4. To repaint the exterior of both buildings, and the interior of the old building.
5. To repair the roof of the old building.
6. To enlarge the toilets.
7. To repair some of the old desks, and to purchase new desks for some of the rooms.

We have had an estimate made by competent persons, to determine the amount of money necessary for the above purposes, and we are informed it will take about $6500 for the same; it is proposed to issue 13 bonds of $500 each, to bear interest at the rate of 5 per cent per annum, two bonds payable each year for six years, and one bond payable the 7th year.

The amount of money necessary to pay two bonds and interest for the first year will be $1325; this amount will decrease each year, and on the 6th year the payment required will be $1075, and the 7th year, $525.

The assessed valuation of the property in this school district last year was a little over $1,300,000; the tax to raise the money asked for will be for the first year, about one dollar on each one thousand dollars of property in the dsitrct, and will decrease gradually each year.

The Board thinks the repairs and furniture mentioned are badly needed, but have no personal desires in the matter and no interest, other than that common to every patron of the school, and it wishes all the patrons and electors of the district to visit the school and inspect the buildings and see for themselves, between this time and the date of the election.

It will require a two thirds vote of all voting, to bond the district.

Respectfully submitted.
